---

### Organizational Setting

The Regional Office for the Near East and North Africa, RNE is responsible for leading FAO's response to regional priorities for food security, agriculture and rural development through the identification, planning and implementation of FAO's priority activities in the region. It ensures a multidisciplinary approach to programmes, identifies priority areas of action for the Organization in the Region and, in collaboration with departments and divisions at Headquarters, develops, promotes and oversees FAO's strategic response to regional priorities. RAP also advises on the incorporation of regional priorities into the Organization's Programme of Work and Budget and implements approved programmes and projects in the region, monitors the level of programme implementation and draws attention to problems and deficiencies. RNE develops and maintains relations with region-wide institutions including the Regional Economic Integration Organizations (REIOs).

The Regional Office supports regional policy dialogue on food security, agriculture and rural development issues, facilitates the emergence of regional partnerships, and supports capacity development and resource mobilization for food security, agriculture and rural development in the region.

The post is located in Cairo.

### Reporting Lines

The Senior Fishery Officer reports to the Assistant Director-General/Regional Representative for the Near East and North Africa under the functional guidance of the Assistant Director-General, Fisheries and Aquaculture Department

### Technical Focus

Planning, coordinating and leading the FAO work programme related to fisheries and aquaculture management and development in the Region. The incumbent will also contribute to strengthening partnership and knowledge networks within and outside the Organization, supporting country-level actions guided by FAO's Country Programme Framework (CPF) as well as increasing South-South and triangular cooperation.

### Key Results

Leadership and technical policy expertise for the planning, development and implementation of Regional Programmes of work, projects, products, services in accordance with Regional objectives and FAO Strategic Objectives

### Key Functions

- Plans, manages, or leads highly specialized or multi-disciplinary teams, leads, coordinates, and/or participates in Regional committees, project teams, and working groups, and/or provides technical leadership/secretariat services on technical networks and/or international technical policy and standard setting bodies.
- Analyzes global and country specific requirements and relevant technical issues to provide critical input into the FAO Strategic Objectives, Programme of Work, work plans and the supporting budgets and/or resourcing strategies.
- Implements and monitors programmes of work involving the development of the approach, evidence based strategies, and related tools, methodologies and the supporting system/database, monitoring and reporting frameworks
- Conducts, designs and oversees research and analysis activities to support the development of technical standards, international instruments, innovation, technical reports, publications and/or on-going programme development as well as the provision of technical and/or policy advisory services
- Provides technical and policy advice to Member countries and technical support to decentralized offices in the development and implementation of their programmes.
- Leads and/or collaborates in, provides technical backstopping to and ensures the quality / effectiveness of capacity development and knowledge sharing activities within member countries such as policy support, organizational development and individual learning events including preparation of related information, learning, on-line tools.
- Represents the Organization at international meetings and conferences, identifies and implements strategic partnerships, advocates best practices and increased policy dialogue and develops and negotiates effective working relationships/consensus and agreements with international and national stakeholders.

- Leads and/or participates in resource mobilization activities in accordance with the FAO Corporate strategy.

### Specific Functions

- Initiate, respond to and co-ordinate the identification and formulation of requests for external assistance in the fields of responsible capture fisheries and aquaculture sustainable development and provide technical support to the field programme in the framework of the FAO Code of Conduct for the Responsible Fisheries and ecosystem approach to fisheries and aquaculture;
- Liaise with the Fisheries and Aquaculture Department in defining, planning and implementing programmes for the development and management of fisheries and aquaculture in marine and inland waters of the Region;
- Act as Secretary of designated FAO regional fishery bodies.

---
