The Cyprus Social Insurance Scheme

Welcome,

This guide provides information as regards your rights and obligations under the Cyprus Social Insurance Scheme as well as information about the Social Pension and the Child Benefit. Furthermore, it provides general information about the EU Regulation 883/04 which coordinates the Social Security Systems of the EU member states.

The Cyprus Social Insurance Scheme

If you already have a job in Cyprus

If you are already working in Cyprus you should be aware that there is only one Social Insurance Scheme (SIS) which covers all the employed and self-employed persons.

How much contribution you pay, and how you pay it depends on

- How much you earn and
- Whether you work for someone or for yourself.

Your contributions to the Social Insurance Fund

In case you work for someone you are an “employed person”. The person you work for is your “employer” and he is responsible for your registration under the SIS. Your employer will take from your gross wages 6,8% and pay it to the Social Insurance Fund. At the beginning of every contribution year you will receive from the Social Insurance Services a statement which indicates your total earnings and contributions for the previous contribution year.

The rate of your contribution is 17,9% on your wages and it is divided to contributions paid by your employer, yourself and the State in the proportion of 6,8%, 6,8% and 4,3% respectively.

In case you work for yourself you are “self-employed person” and you will be responsible to register yourself to the SIS and pay your contributions directly to us every three months.

The rate of your contribution is 16,9% on your notional income. Out of 16,9%, 12,6% is paid by you and 4,3% by the State. You are also have to pay extra 2% to the Social Cohesion Fund.

In addition, you should be aware that voluntary insurance is allowed to persons who wish to continue insurance after a one year period of compulsory insurance or to persons who work in a third country in the service of Cypriot employers. For voluntary contributors the contribution is 14,8% on the earnings amount declared.

Employment Certificate

When you start to work, your employer will give you an employment certificate which you must fill in and keep a copy of it with you at all times. This certificate includes your personal details as well as the date when you started working for your employer. Your employer is obliged by law to submit this certificate to our Services.

EU Social Security Coordination

The EU provisions on Social Security coordinate the Social Security Schemes of the EU Member States and establish common rules and principles which have to be observed by all national authorities and social security institutions when applying national laws.

In which Member State are you covered?

As a general rule you are subject to the Social Security Legislation of only one Member State at a time – the State where you are working. Therefore, if you are working in Cyprus you are subject to the Cypriot Social Security Legislation.

Nevertheless, the aforementioned rule has certain exceptions. The most frequent derogation is the case of posting where the posted workers remain subject to the Legislation of the State where they are posted from. Therefore, if you are posted from your Cypriot employer to another EU Member State for a period which does not exceed two years then you should make sure you get the A1 document which verifies that you are covered by the Cypriot Legislation.

To get the A1 document you should contact the Social Insurance Office of your District in order to fill an application which is also available on the Social Insurance Services Website.

How the coordination rules apply as regards your cash benefits?

Sickness benefit, maternity allowance and maternity grant

As a matter of principle, these benefits are always paid by the State where you are last insured, regardless of which state you are residing.

In case that you do not meet the necessary contribution conditions for these benefits then periods of insurance which you have completed in another Member State will be taken into account.

So if you are working in Cyprus and you apply for one of the above benefits and you do not satisfy the necessary contribution conditions of the Cypriot Social insurance Legislation, then, contributions in any other EU Member State will be taken into account.

Unemployment Benefit

If you become unemployed in Cyprus and you claim for unemployment benefit the Social Insurance Services will take into account your periods of insurance in any other EU Member State in case that is necessary to acquire entitlement to this benefit.

If you are registered as unemployed for at least four weeks and you want to look for a job in another Member State you should ask from the Social Insurance Services the U2 document which allows you to export unemployment benefit for three months.

Furthermore, you should be aware that within seven days upon your departure

from Cyprus you should register as unemployed at the employment services of the country in which you are looking for a job.

If you become unemployed in Cyprus and you wish to return to your country of residence to look for a job and claim for unemployment benefits there, then, you should contact the Cyprus Social Insurance Services and ask for the U1 document.

If you are employed in the tourist industry and your employment is temporarily suspended during the winter period you may apply for unemployment benefit only in Cyprus.

Old age Pension, invalidity pension, widows' pension and orphans' benefit

According to the EU Regulations you can receive pension from each Member State in which you have been insured for more than a year. All pensions are exported to the country of your residence.

The amount of the pension you will receive from each one of the member states depends on the length of your insurance in each state. If the period during which you have been insured in a member state is not long enough to qualify for a pension there, any periods of insurance which you completed in other member states will be taken into account.

If you reside in Cyprus and wish to apply for the above mentioned benefits, you may contact the Social Insurance Office of your District in order to fill in the necessary application forms. The Social Insurance Services will forward your application to the Member State/s where you have worked and been insured.

Social Pension

If you reside in Cyprus and you do not meet the residence criteria for the payment of Social Pension, then the periods of residence which you have completed in any other EU Member State will be aggregated.

Please, have in mind that this benefit will not be exported if you transfer your residence abroad.

Family Benefits

Members of the family residing in another Member State.

A person shall be entitled to family benefits in accordance with the legislation of the competent Member State, including for his family members residing in another Member State, as if they were residing in the former Member State. However, a pensioner shall be entitled to family benefits in accordance with the legislation of the Member State competent for his pension.

Priority rules in the event of overlapping.

Where, during the same period and for the same family members, benefits are provided for under the legislation of more than one Member State priority rules apply.

In the case of overlapping entitlements, family benefits shall be provided in accordance with the legislation designated as having priority. Entitlements to family benefits by virtue of other conflicting legislation or legislations shall be suspended up to the amount provided for by the first legislation and a differential supplement shall be provided, if necessary, for the sum which exceeds this amount. However, such a differential supplement does not need to be provided for children residing in another Member State when entitlement to the benefit in question is based on residence only.
